

## Senior AD/Exchange Engineer

---

3t Systems is an IT consulting company that manages all aspects of your IT, so you have the Freedom to Focus on priority business needs. Since 2001, 3t Systems has been delivering cloud services to our clients through virtualization, collaboration, and managed services. 3t's unique custom offerings keep your business up and running while conserving your valuable resources. Discover what 3t's Freedom to Focus approach can do for your business at [www.3tsystems.com](http://www.3tsystems.com).

We are currently seeking a Senior AD/Exchange Engineer. A 3t Systems Senior AD/Exchange Engineer maintains the integrity and operability of the client's AD/Exchange environment along with coordinating complex projects. S/he implements and manages AD/Exchange technologies to form a solution from inception through maintenance.

### Responsibilities:

- Provide ongoing technical service and support for our managed clients
- Deliver technology solutions for clients on time and on budget
- Implement, design, and manage complex AD/Exchange infrastructures
- Keep informed about and gain expertise to make use of existing and newly added functionality in AD/Exchange, VMware, and Microsoft virtualization solutions
- Gain in-depth understanding of client's business processes, gather data requirements, and create the appropriate technology solution to solve the business issues
- Contribute technical expertise to project documentation
- System documentation to include system reviews and recommendations
- Act as a technical mentor to other team members
- Supporting existing and new deployments
- Ability to analyze and resolve issues related to technology
- Look for opportunities to improve the client's productivity and efficiencies through technology
- Ask questions and seek to develop a deeper understanding of the client's business and how IT can be used to assist the achievement their business strategy and goals
- Document internal processes and procedures related to duties and responsibilities
- Other responsibilities as assigned

### Qualifications:

- 5+ years solid AD/Exchange experience
- 5+ years deploying and designing AD/Exchange solutions
- Strong communication, verbal and written
- Ability and confidence to work with all levels within the organization
- Experience with 2003, 2007, and 2010 Exchange
- Experience with 2003 and 2008 Active Directory
- MSCE 200x is helpful
